Read all of this leaflet carefully because it contains important information for you

Genologix Gluta-C Advanced Skin Brightening Complex is available without a doctor's prescription, for you to maintain your health. Nevertheless, you still need to use Genologix Gluta-C Advanced Skin Brightening Complex carefully to get the best results from it.

- Keep this leaflet. You may need to read it again.
- Do not share Genologix Gluta-C Advanced Skin Brightening Complex with any other person.
- Ask your health care provider or pharmacist if you need more information or advice.

What is in this leaflet

1. What Genologix Gluta-C Advanced Skin Brightening Complex is and what it is used for
2. What you need to know before you take Genologix Gluta-C Advanced Skin Brightening Complex
3. How to take Genologix Gluta-C Advanced Skin Brightening Complex
4. Possible side effects
5. How to store Genologix Gluta-C Advanced Skin Brightening Complex
6. Contents of the pack and other information

1. What Genologix Gluta-C Advanced Skin Brightening Complex is and what it is used for

Genologix Gluta-C Advanced Skin Brightening Complex is a health supplement. It contains L-glutathione, made by a natural fermentation process, and vitamin C (ascorbic acid).

Glutathione is made up of three amino acids. Your body makes it naturally, and it is found in almost every cell.

Genologix Gluta-C Advanced Skin Brightening Complex:

- provides antioxidants (glutathione);
- contains vitamin C, an antioxidant for the maintenance of good health;
- contains vitamin C, which helps in connective tissue formation; and
- contains vitamin C, which contributes to normal collagen formation for the normal function of the skin.

2. What you need to know before you take Genologix Gluta-C Advanced Skin Brightening Complex

Do not take Genologix Gluta-C Advanced Skin Brightening Complex:

- if you are hypersensitive (allergic) to L-glutathione or vitamin C or any of the other ingredients of Genologix Gluta-C Advanced Skin Brightening Complex (listed in section 6).

Warnings and precautions

Take special care with Genologix Gluta-C Advanced Skin Brightening Complex. Talk to your doctor or pharmacist before taking it:

- if you are being treated for cancer with chemotherapy or radiotherapy;
- if you have a long-term illness or take medicine prescribed by your doctor;
- if you have kidney disease or have had kidney stones;
- if you have glucose-6-phosphate dehydrogenase (G6PD) deficiency (an inherited blood disorder);
- if you have iron overload (haemochromatosis).

Children and adolescents

Do not give Genologix Gluta-C Advanced Skin Brightening Complex to children and adolescents under 18 years of age. Its safety in this age group has not been established.

Other medicines and Genologix Gluta-C Advanced Skin Brightening Complex

Always tell your health care provider if you are taking any other medicine. (This includes all complementary or traditional medicines.)

No interactions with other medicines are known.

Glutathione is an antioxidant. Antioxidants may affect how some cancer treatments (chemotherapy and radiotherapy) work. Talk to your doctor before taking it if you are having cancer treatment.

Genologix Gluta-C Advanced Skin Brightening Complex with food, drink and alcohol

For best results, take Genologix Gluta-C Advanced Skin Brightening Complex on an empty stomach (see section 3). No interactions with drinks or alcohol are known.

Pregnancy, breastfeeding and fertility

Talk to your health care provider before you take Genologix Gluta-C Advanced Skin Brightening Complex if you are pregnant, intend to become pregnant, or are breastfeeding. Its safety in pregnancy and breastfeeding has not been established, and it is not recommended during this time.

If you are pregnant or breastfeeding, think you may be pregnant or are planning to have a baby, please consult your doctor, pharmacist or other health care provider for advice before taking this medicine.

Driving and using machines

Genologix Gluta-C Advanced Skin Brightening Complex is not expected to affect your ability to drive or use machines.

It is not always possible to predict to what extent Genologix Gluta-C Advanced Skin Brightening Complex may interfere with your daily activities. Do not drive, operate machinery or take part in activities that need you to be alert until you know how Genologix Gluta-C Advanced Skin Brightening Complex affects you.

Genologix Gluta-C Advanced Skin Brightening Complex contains

Genologix Gluta-C Advanced Skin Brightening Complex contains no sugar and no sweeteners.

3. How to take Genologix Gluta-C Advanced Skin Brightening Complex

Do not share medicines prescribed for you with any other person.

Always take Genologix Gluta-C Advanced Skin Brightening Complex exactly as described in this leaflet or as your doctor or pharmacist has told you. Check with your doctor or pharmacist if you are not sure.

Adults (18 years and older): take two (2) capsules once a day. This provides 1 000 mg of L-glutathione and 250 mg of vitamin C.

Do not take more than two (2) capsules in 24 hours.

Children and adolescents under 18 years: Genologix Gluta-C Advanced Skin Brightening Complex is not intended for this age group.

How to take it:

1. Take the capsules first thing in the morning.
2. Take them on an empty stomach, if possible.
3. Swallow the capsules whole with a glass of water.
4. Stop taking Genologix Gluta-C Advanced Skin Brightening Complex if you get any side effects (see section 4).

A varied diet is the most effective and safe way to achieve good nutrition, health, body composition as well as mental and physical performance.

If you take more Genologix Gluta-C Advanced Skin Brightening Complex than you should

If you take too many capsules, you may get stomach cramps, bloating, nausea or diarrhoea.

In the event of overdosage, consult your doctor or pharmacist. If neither is available, contact the nearest hospital or poison centre.

If you forget to take Genologix Gluta-C Advanced Skin Brightening Complex

If you forget a dose, take your next dose at the usual time the next day.

Do not take a double dose to make up for a forgotten dose.

If you stop taking Genologix Gluta-C Advanced Skin Brightening Complex

You can stop taking Genologix Gluta-C Advanced Skin Brightening Complex at any time. No withdrawal effects are expected.

4. Possible side effects

Genologix Gluta-C Advanced Skin Brightening Complex can have side effects.

Not all side effects reported for Genologix Gluta-C Advanced Skin Brightening Complex are included in this leaflet. Should your general health worsen or if you experience any untoward effects while taking Genologix Gluta-C Advanced Skin Brightening Complex, please consult your health care provider for advice.

If any of the following happens, stop taking Genologix Gluta-C Advanced Skin Brightening Complex and tell your doctor immediately or go to the casualty department at your nearest hospital:

- swelling of the hands, feet, ankles, face, lips, mouth or throat, which may cause difficulty in swallowing or breathing,
- rash or itching,
- fainting.

These are all very serious side effects. If you have them, you may have had a serious reaction to Genologix Gluta-C Advanced Skin Brightening Complex. You may need urgent medical attention or hospitalisation.

Tell your doctor if you notice any of the following:

Frequency unknown:

- stomach pain or cramps,
- bloating,
- nausea (feeling sick),
- vomiting (being sick),
- diarrhoea (loose, watery stools).

If you notice any side effects not mentioned in this leaflet, please inform your doctor or pharmacist.

Reporting of side effects

If you get side effects, talk to your doctor or pharmacist. You can also report side effects to SAHPRA via the Med Safety APP (Medsafety X SAHPRA) and eReporting platform (who-umc.org) found on SAHPRA website. By reporting side effects, you can help provide more information on the safety of Genologix Gluta-C Advanced Skin Brightening Complex.

You can also report side effects directly to Genologix by completing the side effect report form on our website at https://genologix.co.za/adr-form-page/, or by contacting us on 087 094 0594, WhatsApp 060 532 8317 or info@genologix.co.za.

5. How to store Genologix Gluta-C Advanced Skin Brightening Complex

Store all medicines out of reach of children.

- Store in a cool, dry place at or below 25 °C.
- Protect from light and moisture.
- Keep the capsules in the original glass bottle. Close the lid tightly after each use.
- Do not store in a bathroom.
- Do not use after the expiry date printed on the label.
- Do not use Genologix Gluta-C Advanced Skin Brightening Complex if the seal is broken or the capsules look damaged or discoloured.

Return all unused medicine to your pharmacist.

Do not dispose of unused medicine in drains or sewerage systems (e.g. toilets).

6. Contents of the pack and other information

What Genologix Gluta-C Advanced Skin Brightening Complex contains

The active substances are L-glutathione (reduced form, made by fermentation) and vitamin C (ascorbic acid).

Active ingredient	Per capsule	Per daily dose (2 capsules)	% NRV*
L-Glutathione (reduced) [fermentation]	500 mg	1 000 mg	

Active ingredient	Per capsule	Per daily dose (2 capsules)	% NRV*
Vitamin C (ascorbic acid)	125 mg	250 mg	278%
*NRV = Nutrient Reference Value for adults			

The other ingredients are microcrystalline cellulose and hypromellose (the vegan capsule shell).

Microcrystalline cellulose is a plant fibre used as a filler. It makes sure that every capsule contains the correct amount of the active ingredient. These ingredients are not active ingredients. They are only used to help us make the capsules accurately and consistently.

What Genologix Gluta-C Advanced Skin Brightening Complex looks like and contents of the pack

Clear, hard vegan (hypromellose) capsules filled with a white powder. Glutathione naturally has a slight sulphur smell. This is normal and does not mean the product has gone off.

60 capsules (30 daily doses) packed in a cobalt blue glass bottle with an aluminium lid and a silica desiccant sachet.
