Read all of this leaflet carefully because it contains important information for you

Genologix L-Glutathione 500mg is available without a doctor's prescription, for you to maintain your health. Nevertheless, you still need to use Genologix L-Glutathione 500mg carefully to get the best results from it.

- Keep this leaflet. You may need to read it again.
- Do not share Genologix L-Glutathione 500mg with any other person.
- Ask your health care provider or pharmacist if you need more information or advice.

What is in this leaflet

1. What Genologix L-Glutathione 500mg is and what it is used for
2. What you need to know before you take Genologix L-Glutathione 500mg
3. How to take Genologix L-Glutathione 500mg
4. Possible side effects
5. How to store Genologix L-Glutathione 500mg
6. Contents of the pack and other information

1. What Genologix L-Glutathione 500mg is and what it is used for

Genologix L-Glutathione 500mg is a health supplement. It contains L-glutathione, made by a natural fermentation process.

Glutathione is made up of three amino acids. Your body makes it naturally, and it is found in almost every cell.

Genologix L-Glutathione 500mg:

- is a source of antioxidants.

2. What you need to know before you take Genologix L-Glutathione 500mg

Do not take Genologix L-Glutathione 500mg:

- if you are hypersensitive (allergic) to L-glutathione or any of the other ingredients of Genologix L-Glutathione 500mg (listed in section 6).

Warnings and precautions

Take special care with Genologix L-Glutathione 500mg. Talk to your doctor or pharmacist before taking it:

- if you are being treated for cancer with chemotherapy or radiotherapy; or
- if you have a long-term illness or take medicine prescribed by your doctor.

Children and adolescents

Do not give Genologix L-Glutathione 500mg to children and adolescents under 18 years of age. Its safety in this age group has not been established.

Other medicines and Genologix L-Glutathione 500mg

Always tell your health care provider if you are taking any other medicine. (This includes all complementary or traditional medicines.)

No interactions with other medicines are known.

Glutathione is an antioxidant. Antioxidants may affect how some cancer treatments (chemotherapy and radiotherapy) work. Talk to your doctor before taking it if you are having cancer treatment.

Genologix L-Glutathione 500mg with food, drink and alcohol

For best results, take Genologix L-Glutathione 500mg on an empty stomach (see section 3). No interactions with drinks or alcohol are known.

Pregnancy, breastfeeding and fertility

Talk to your health care provider before you take Genologix L-Glutathione 500mg if you are pregnant, intend to become pregnant, or are breastfeeding. Its safety in pregnancy and breastfeeding has not been established, and it is not recommended during this time.

If you are pregnant or breastfeeding, think you may be pregnant or are planning to have a baby, please consult your doctor, pharmacist or other health care provider for advice before taking this medicine.

Driving and using machines

Genologix L-Glutathione 500mg is not expected to affect your ability to drive or use machines.

It is not always possible to predict to what extent Genologix L-Glutathione 500mg may interfere with your daily activities. Do not drive, operate machinery or take part in activities that need you to be alert until you know how Genologix L-Glutathione 500mg affects you.

Genologix L-Glutathione 500mg contains

Genologix L-Glutathione 500mg contains no sugar and no sweeteners.

3. How to take Genologix L-Glutathione 500mg

Do not share medicines prescribed for you with any other person.

Always take Genologix L-Glutathione 500mg exactly as described in this leaflet or as your doctor or pharmacist has told you. Check with your doctor or pharmacist if you are not sure.

Adults (18 years and older): take two (2) capsules once a day. This provides 500 mg of L-glutathione.

Do not take more than two (2) capsules in 24 hours.

Children and adolescents under 18 years: Genologix L-Glutathione 500mg is not intended for this age group.

How to take it:

1. Take the capsules first thing in the morning.
2. Take them on an empty stomach, if possible.
3. Swallow the capsules whole with a glass of water.
4. Stop taking Genologix L-Glutathione 500mg if you get any side effects (see section 4).

A varied diet is the most effective and safe way to achieve good nutrition, health, body composition as well as mental and physical performance.

If you take more Genologix L-Glutathione 500mg than you should

If you take too many capsules, you may get stomach cramps, bloating, nausea or diarrhoea.

In the event of overdosage, consult your doctor or pharmacist. If neither is available, contact the nearest hospital or poison centre.

If you forget to take Genologix L-Glutathione 500mg

If you forget a dose, take your next dose at the usual time the next day.

Do not take a double dose to make up for a forgotten dose.

If you stop taking Genologix L-Glutathione 500mg

You can stop taking Genologix L-Glutathione 500mg at any time. No withdrawal effects are expected.

4. Possible side effects

Genologix L-Glutathione 500mg can have side effects.

Not all side effects reported for Genologix L-Glutathione 500mg are included in this leaflet. Should your general health worsen or if you experience any untoward effects while taking Genologix L-Glutathione 500mg, please consult your health care provider for advice.

If any of the following happens, stop taking Genologix L-Glutathione 500mg and tell your doctor immediately or go to the casualty department at your nearest hospital:

- swelling of the hands, feet, ankles, face, lips, mouth or throat, which may cause difficulty in swallowing or breathing,

- rash or itching,
- fainting.

These are all very serious side effects. If you have them, you may have had a serious reaction to Genologix L-Glutathione 500mg. You may need urgent medical attention or hospitalisation.

Tell your doctor if you notice any of the following:

Frequency unknown:

- stomach pain or cramps,
- bloating,
- nausea (feeling sick),
- vomiting (being sick),
- diarrhoea (loose, watery stools).

If you notice any side effects not mentioned in this leaflet, please inform your doctor or pharmacist.

Reporting of side effects

If you get side effects, talk to your doctor or pharmacist. You can also report side effects to SAHPRA via the Med Safety APP (Medsafety X SAHPRA) and eReporting platform (who-umc.org) found on SAHPRA website. By reporting side effects, you can help provide more information on the safety of Genologix L-Glutathione 500mg.

You can also report side effects directly to Genologix by completing the side effect report form on our website at https://genologix.co.za/adr-form-page/, or by contacting us on 087 094 0594, WhatsApp 060 532 8317 or info@genologix.co.za.

5. How to store Genologix L-Glutathione 500mg

Store all medicines out of reach of children.

- Store in a cool, dry place at or below 25 °C.
- Protect from light and moisture.
- Keep the capsules in the original pouch. Reseal the pouch tightly after each use.
- Do not store in a bathroom.
- Do not use after the expiry date printed on the pouch.
- Do not use Genologix L-Glutathione 500mg if the pouch seal is broken or the capsules look damaged or discoloured.

Return all unused medicine to your pharmacist.

Do not dispose of unused medicine in drains or sewerage systems (e.g. toilets).

6. Contents of the pack and other information

What Genologix L-Glutathione 500mg contains

The active substance is L-glutathione (reduced form), made by fermentation.

Active ingredient	Per capsule	Per daily dose (2 capsules)
L-Glutathione (reduced) [fermentation]	250 mg	500 mg

The other ingredients are microcrystalline cellulose and hypromellose (the vegan capsule shell).

Microcrystalline cellulose is a plant fibre used as a filler. It makes sure that every capsule contains the correct amount of the active ingredient. These ingredients are not active ingredients. They are only used to help us make the capsules accurately and consistently.

What Genologix L-Glutathione 500mg looks like and contents of the pack

Clear, hard vegan (hypromellose) capsules filled with a white powder. Glutathione naturally has a slight sulphur smell. This is normal and does not mean the product has gone off.

60 capsules (30 daily doses) packed in a resealable, laminated, light-protective pouch.
